The home owner is requesting a waiver to install Vinly windows in the front of the 43 Niles Street home. Owner recently purchased the building with the intent to clean it up and upgrade it for living purposes. It was previously owned by Slum Land Lords who allowed it to deteoriate while renting it to low income tennants. The home owner does not have a budget to purchse historical window materials and subsequently, the Vinyl windows is most affordable option. Home owner believes the renovations will enhance the neighborhood and home values in the surrounding area.
Other: Replace the windows in the front of the house with Vinyl
Old rotted wood around the window frames. Some of the windows have no glass and is just boarded up.
New wood to fill around the windows, White vinyl by the window Simonton brand which is built with Pro- Solar low e-glass and Argon gas fill. Frame Depth is 3- 1/4; glass thickness is 3/4"; Extruded Aluminum Half Screen

Please upload all supporting materials and photographs **<u>43 Niles Street - Original Windows pre closing.pdf</u>** below.
