Notice to Municipality

Intent to Conduct Regulated Activities authorized by a Dam Safety General Permit

Form IWRD-DSGP-014-015-016 Notice

This notice is for use by person(s) intending to conduct an activity authorized by a DEEP Dam Safety General Permit. Complete and submit this form to the inland wetlands commission or related environmental commission of each municipality affected by the proposed activity a minimum of two (2) weeks prior to initiating the activity (60 days for dam removal activities). A copy of the submitted form(s) showing the municipal stamp indicating receipt shall be included with the filing made to the DEEP or submitted to DEEP independently.

Part I: Filing Type (Check the box to indicate the general permit(s) or form being utilized with this notice.)

Form with four rows for selecting filing types: Dam Safety General Permit GP-014, GP-015-3(a)1, GP-015-3(a)2 or 3(a)3, and GP-016-3(a). Each row has a checkbox and a description of the permit requirements.

Part Ia: Municipalities Affected and Description of Project

Form for listing municipalities and describing the project. Includes text: 'List Municipality(ies) Receiving Notices: Hartford' and a detailed description of vegetation removal and ground surface work.

Part II: Party to be authorized by a Dam Safety General Permit

Form for providing contact information for the party to be authorized. Includes fields for Name, Mailing Address, City/Town, State, Zip Code, Business Phone, Contact Person, and Filing Party's interest in the property.

Part III: Site Information

1. DAM and WATERBODY NAME, LOCATION, and PROPOSED DATES OF ACTIVITIES. Please provide the following general information regarding the subject dam and impoundment.

- a. Name of Dam: **North Meadows Dike** CT DamID: **6408**
- b. Name(s) of Waterbody: **Connecticut River**
- c. Nearest Street Address to the dam: # & Street: **50 Jennings road** City/Town: **Hartford**
- d. Instructions for access to the dam: **Access to the levee should be coordinated with the Property owner representative listed in Part II.**
- e. Proposed date of initiation of the activities: **July 2021**
- f. Estimated date of completion of the activities: **August 2021**

2. FILL IN WETLANDS. Does the proposed work include any filling of or activities within wetlands?

Yes No

If yes, it is the intent of the General Permits to authorize certain activities within wetlands specifically associated and necessary to the dam maintenance, repair or alteration. In these circumstances a municipal wetland permit is not typically required as allowed by Sec. 22a-403(b) of the CT General Statutes. Activities in wetlands occurring in areas not related to the dam are not intended to be authorized by these permits and may require municipal approval.

3. BEST MANAGEMENT PRACTICES. Will the proposed activities occur in or will equipment traverse wetlands or floodplains or watercourses to reach work areas with the potential to cause erosion and sedimentation or release pollution? Yes No

If yes, a detailed description of the pollution prevention and best management practices that will be implemented to minimize construction in and disturbance of floodplains, wetlands, and watercourses, and prevent pollution is required with any general permit filing to DEEP and can be made available to the Municipality upon request.

Part IV: Certification

"I certify that on the date below, I delivered this Notice to the Municipality:"
