Teaching & Learning Committee Meeting Office of Talent Management: TNTP Proposal

October 27, 2021

1

1

Agenda: October 27, 2021

1. Review TNTP contract for the Regular Meeting
2. High-level view of the OTM Audit Report
3. Understand how partnering with TNTP will support an aggressive timeline in implementing audit findings

2

2

Contract: TNTP		
Objectives	As a result of this partnership, OTM will be able to implement a more efficient and robust talent cycle this year and will establish a strong foundation for implementing long-term, sustainable practices.	
Deliverables	<ul style="list-style-type: none"> <input type="checkbox"/> Support the development of clear and concrete goals for the talent management cycle this year, create data tracking tools, and establish routines to track progress to goals. <input type="checkbox"/> Support the creation of a talent management timeline and project plan for the year that reflects a clear strategy and action steps central to achieving the goals. <input type="checkbox"/> Support the design of new or revised talent processes, leveraging best practices and strong models from their work nationally. <input type="checkbox"/> Facilitate knowledge-building related to talent management practices, grounded in artifact reviews and exemplars from national work and best practice. 	
Contract Amount	\$217,127	
Contract Term	6 months: November, 2021 - May, 2022	
Department	Office of Talent Management	
Strategy Alignment	Priority 4: Skillful Staff Strategy 1: Improve employee recruitment, onboarding, development, leadership, and recognition	

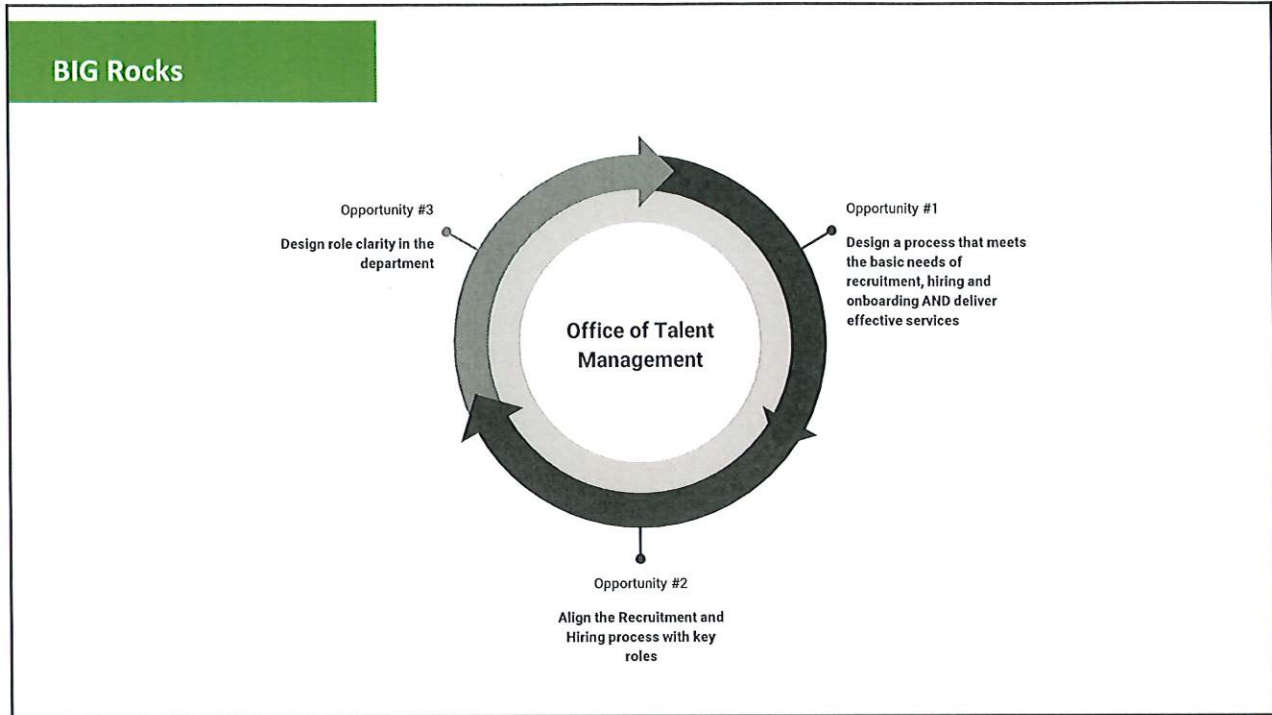

3

3

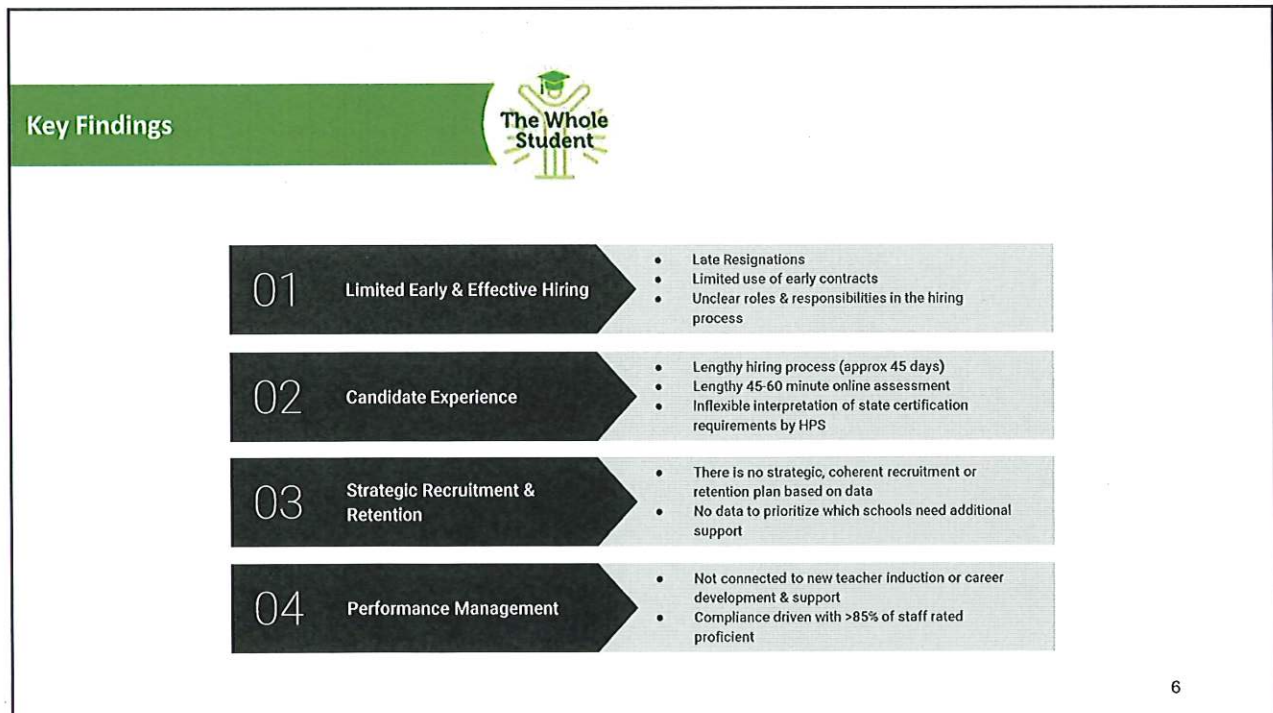

USHCA Assessment of OTM		
Purpose	Stakeholder Meetings	
<ul style="list-style-type: none"> ★ Audit key talent functionality ★ Identify key strengths to build on ★ Elevate pain points to address ★ Determine best practices and benchmarks ★ Perform a strategic review of key talent data ★ Provide holistic and prioritized recommendations 	<ul style="list-style-type: none"> ➤ 8 District Leaders ➤ 12 OTM Staff Members ➤ 4 School-based Staff ➤ 5 Other (Financial Systems Manager, Board Member, Professional Learning, Communications) 	

4

4

5

6

Key Findings

05	Strategic Use of Human Capital	<ul style="list-style-type: none"> OTM does not track or leverage human capital data OTM does not share data with EDSLs
06	Organizational Structure & Alignment	<ul style="list-style-type: none"> OTM is not designed to serve schools in strategic talent matters There is no alignment to EDSLs There is no single point of contact for Principals
07	Key Processes & Systems in Recruitment & Hiring	<ul style="list-style-type: none"> Non-integrated systems require manual entry & notification One hour to process one new hire
08	Basic HR Services & Process	<ul style="list-style-type: none"> Basic HR services like leaves and benefits are tracked outside of systems of record and are paper based

7

7

Recommendations

- Implement early and proactive planning to target, attract and retain high quality candidates and staff
- Improve the quality of the applicant pool and streamline application and hiring efforts**
- Drive policies and processes to enable earlier hiring of teachers and principals**
- Develop recruitment messages that align with and reflect the district's and community's core values
- Differentiate services to high needs schools to ensure students with the most needs get the most effective teachers and principals
- Incorporate evaluation results and other teacher quality measures in all key human capital decisions including retention, development, and promotion activities
- Identify and track clear metrics and goals for the department/teams/individual roles that align with the district's overall goals and overall talent management objectives**
- Improve proactive and strategic talent management support to principals**
- Improve the delivery and quality of customer service

8

8

TNTP Partnership

A key goal will be to improve the candidate experience by reducing the lengthy hiring process and ensuring that OTM provides a single point of contact and consistently high-quality services for principals.

Improve the **quality of the applicant pool and streamline application and hiring efforts**

Drive **policies and processes to enable earlier hiring of teachers and principals**

Identify and track clear metrics and goals for the department/teams/individual roles that align with the district's overall goals and overall talent management objectives

Improve **proactive and strategic talent management support to principals**

This partnership will build on the key findings and recommendations stemming from USHCA's talent diagnostic.

Extended Learning Opportunities 21-22

High Dosage Tutoring Teaching & Learning Committee

10/27/21

1

1

High Dosage Tutoring Context

Stakeholder feedback has informed our strategic plan and ESSER investments

Stakeholder	Feedback Themes	How this shows up in our Operating Plan
Students	<ul style="list-style-type: none"> High school students want flexibility in how/when they learn (especially with time to manage work/home responsibilities) Need for Mental health supports 	<ul style="list-style-type: none"> Twilight school for high schoolers Investment in mental health supports - e.g. clinical staff/partnerships, wellness spaces, teacher PL on trauma-sensitive practices
Families	<ul style="list-style-type: none"> Focus on individual needs and tutoring Social-emotional and other non-academic supports and enrichment Prioritize school-based spending 	<ul style="list-style-type: none"> Targeted group size reductions for Tier 2 and 3 students (including high-dosage tutoring) Wraparound supports via the Community Schools Model and increased mental health services 96% of planned ESSER II resources will play out in schools
Principals	<ul style="list-style-type: none"> Target investments based on student need Need strategies to re-integrate students, connect with kids Opportunities for flexible, school-based resources Prioritize to deepen/expand MTSS structures and implementation Hiring effective teachers is a key barrier, esp. in hard-to-staff areas 	<ul style="list-style-type: none"> Investments to re-engage students School-based Equity & Innovation Grants with focus on enrichment, wellness, and relationships Recruitment and retention bonuses at high-need schools and hard-to-staff areas

2

Reminder from ESSER II planning

Reminder: Investing in equity

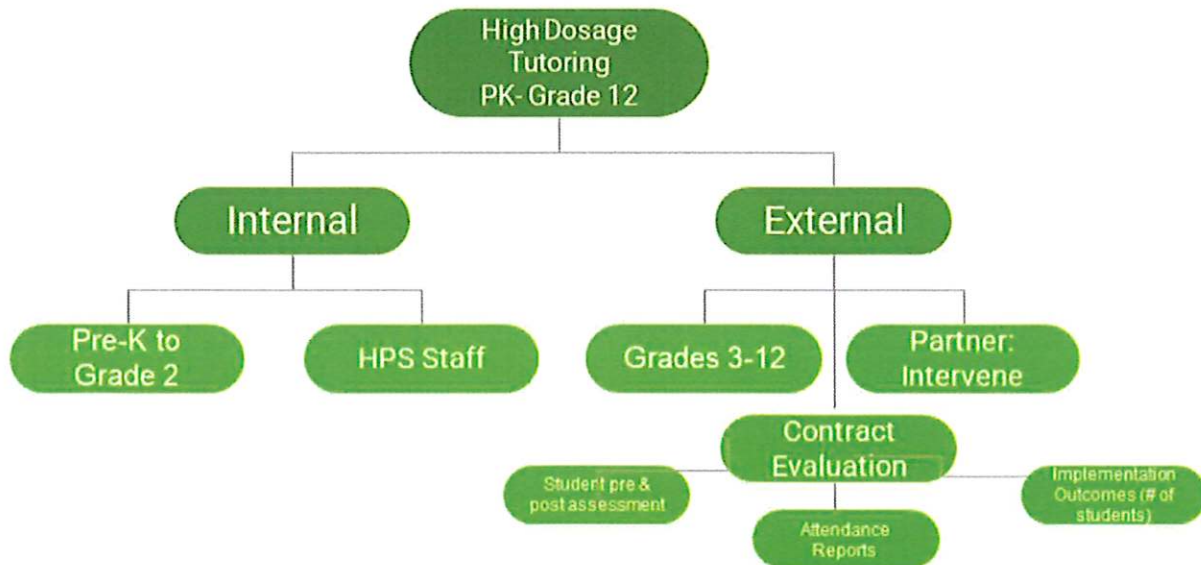

The same equity lens used to drive ESSER II has informed the ESSER III budget

Equity in...	Our approach	Examples
Process	Actively seek stakeholder voice and needs to inform decisions and design	<ul style="list-style-type: none"> Ground in data on student needs and experiences Stakeholder feedback on priorities and experience informs strategic plan and investments
Resource Allocation	Use data to target resources equitably by student need and by school need	<ul style="list-style-type: none"> Tier ESSER resources and additional student support based on need, as defined by student early warning indicators and schools' state accountability ratings
Strategies	Deploy strategies that deliberately target disrupting historical patterns of inequity	<ul style="list-style-type: none"> Invest in teacher pipeline, assignment, and capacity initiatives to put highest quality teachers in front of highest needs students Expand learning time with offerings during non-traditional hours

Data inside the Questions

- 01.** Emulates the State Test
- 02.** Answer Key focuses on distractors
- 03.** Data inside the questions and answers
- 04.** Test by Lexile level or multi-grade levels for differentiation

Question	Objective	Answer	Distractor			
			A	B	C	D
1	8.6A - Supporting - Math	B	Process - Misread Question - Read the question again	Vocabulary - Circle - What is Radius and Diameter		Area - Circle - Not using formula
2	8.6A - Supporting - Math	A	Vocabulary - Circle - What is Radius and Diameter	Area - Incorrect use of formula		Area - Incorrect use of formula
3	8.7A - Readiness - Math	B	Place Value - Rounding Error	Vocabulary - Circle - What is Radius and Diameter		Volume - Incorrect use of formula
4	8.7B - Readiness - Math	A	Vocabulary - Circle - What is Radius and Diameter		Geometry - Lateral Surface Area - Did not use formula or used the wrong one (Ex. total surface area)	Geometry - What is the value of Pi = 3.14

This is an example of our answer key. It shows students and teachers *why* incorrect answers may have been chosen across multiple standards.

INTERVENE K-12

"Queen Bey" - A Businesswoman at Heart

By David J. DeMarkis, The Intervene Times
August 17, 2018

Who is Beyoncé?

(1) Beyoncé is a top Music star and has won 20 Grammy Awards. (2) Her 2016 Lemonade album got platinum. (3) She was the first female singer to have 12 songs on the billboard charts at one time. (4) She sang at the Super Bowl. (5) She even sang at the White House. (6) Few can question her success in music. (7) Did you know Beyoncé is also a top businesswoman. (8) She sells everything from close to watermelon water. (9) "Queen Bey" is looking to stay in business for a long time.

(10) Fortune magazine called Beyoncé one of the "Most Powerful Women" in the world. (11) She wasn't not always wealthy and powerful. (12) She grow up in a humble home in Houston, Texas. (13) As a kid in H-Town, she fell in love with singing. (14) She worked hard to get noticed by record labels.

Getting Started

(15) Beyoncé did not always succeed. (16) She had failures early in her career. (17) Like, her first deal with Elektra Records did not work out. (18) She did not let this stop her from trying again. (19) If she would have stopped, we would not know her. (20) She said, If everything was perfect, you would never learn, and you would never grow." (21) These skills made her into a great businesswoman.

1. The following sentence should be added to paragraph 7 (sentences 42 -48). Where is the **BEST** place to insert this sentence?

The funds raised by this organization go to raise awareness for girls and women around the world.

A. After sentence 42
 B. After sentence 44
 C. After sentence 45
 D. After sentence 48

Subject 3.4 School Choice & Facilities Committee Report

Meeting Nov 16, 2021 - Regular Meeting

Type Information, Reports

School Choice & Facilities Committee Meeting (October 28, 2021)

Members in attendance: Ayesha Clarke, Shonta Browdy
Sherri Davis-Googe, Claudio Bazzano, Carolyn Ross Lee, Bill Mason

1. Buildings and Grounds:

Update on Construction Projects

Bulkeley High School is in phase six. Demolition is proceeding. Design is nearing completion.
Burns School – Construction is scheduled to start in January 2022.
Facilities Dept and SMSA Roof contracts approved. Delay in material has pushed start date to March 2022.

Fire Alarm – Working with Encore, we have determined that 8 out of 35 schools have voice over capabilities. The schools are: MLK, Batchelder, Capital Prep, Classical, Fisher, Fox Middle/AF, McDonough, and SAND. The Facilities Dept is working with the Security Dept to test these 8 schools to determine if the voice over capabilities extend to the classrooms.

Ms. Shonta Browdy has shared that she possess documents that state the system that was permitted for was not the one installed. We have requested a copy.

2. Transportation:

Bus Driver Shortage

- Continue to be ok.
- Have had some challenges.
- All routes have been staffed daily.
- Able to move some vans to cover small yellow bus routes and send drivers of little yellow buses to big buses.
- Continue to recruit drivers

Saturday School

- Saturday school is set to start 12/4/2021.
- 1 School from each zone and a high school.
- Normal transportation requirements for walkers/riders.
- Bus co assures will have enough drivers to work it.
- Expect list of students on 11/19/2021.

Winter Busing

- In past the past winter, prior to COVID, we put in winter busing.
- Bring mileage requirements down to 1.5 miles for High school and 1.0 miles for middle school.
- Messages went to families, and they could sign up if interested and if the bus had enough space students could be added for the winter months.
- Need to decide if we will do this this year with COVID rules and the need to distance on the buses.

3. CHOICE:

Dates to Know – **DRAFT**
2021-2022 Season

Hartford Public Schools	Opens: January 3, 2022	Closes: March 14, 2022
	8th Education Expo (In-Person) Saturday, January 29 th from 10am to 1pm Snow Date: Sunday, January 30 th from 1pm to 4pm Pending Location	
Regional School Choice Office	Opens: November 8, 2021 Late App Opens: March 1, 2022	Closes: January 31, 2022* Late App Closes: August 15, 2022
	Fall RSCO Fair (In-Person) Saturday, November 13, 2021 from 10am to 2pm Snow Date: Saturday, November 20, 2021 from 10am-2pm Location: Connecticut River Academy (CTRA) Address: 9 Riverside Drive, East Hartford, CT 06118 Fall Virtual Fair Week: Saturday, December 4 to Saturday, December 11, 2021 – This is a week schools may host a virtual information session. It will go here: https://fairs.rsc2.ct.gov/events/	
	Winter RSCO Fair (In-Person) Saturday, January 8, 2022 from 10am to 2pm Snow Date: Saturday, January 22, 2022 from 10am-2pm Location: Academy of Science & Innovation (ASI) in New Britain Address: 600 Slater Rd, New Britain, CT 06053 Winter Virtual Fair Week: Saturday, January 24 to Saturday, January 31, 2022 – This is a week schools may host a virtual information session. It will go here: https://fairs.rsc2.ct.gov/events/	

*There is an early application window for those families interested in applying early to CTECS. That deadline closes January 10, 2022 however, families are able to continue to apply to CTECS after this deadline.

Carolyn reported that new registrations have slowed significantly and were leveling off, though we anticipate there will be a new rush in January with the return from the holidays.

Board Member Questions-

1. Are we using social media post for marketing?

Yes- We can provide a marketing plan at a future meeting.

2. What was the level of progress made on finding displaced/disengaged students?

Chief Davis-Google stated that the number had gone down significantly, and she would provide an update for the next meeting.

December New Policy: 1

Immunizations (5153/5141.3) ([Link to Draft](#))

The Board of Education adheres to those state laws and regulations that pertain to school immunizations and health assessments, including oral health assessments. It is the policy of the Board of Education to insure that all enrolled students are adequately immunized against communicable diseases. The Board may deny continued attendance in school to any student who fails to obtain the health assessments required under C.G.S. 10-206, as may be periodically amended.

PA 21-6: An Act Concerning Immunizations, calls for updates

Note: Policy recodified 10.4.21, review will be completed by staff 12/01/21

4

4

December New Policies: 2 & 3

Student Face Masks (5141.8) ([Link to Draft](#)) & Personnel Face Masks (4118.237/4218.237) ([Link to Draft](#))

- These policies pertain to students, faculty, staff, and visitors. It has been developed to fulfill the guiding principles contained in the *Framework for Connecticut Schools*, specifically to safeguard the health and safety of students and staff and to allow all students the opportunity to return into classrooms full time.

Note: Review will be completed by staff 12/01/21

5

5

December New Policy: 4

Attendance ([Link to Draft](#))

- Regular and punctual student attendance in school is essential to the educational process. Classroom learning experiences are the basis for public school education. Time lost from class is lost instructional opportunity.
 - Public Act 21-46 An Act Concerning Social Equity and the Health, Safety and Education of Children
 - Allows for 2 non-consecutive mental health absences during the school year

Note: Review will be completed by staff 12/01/21

November 4, 2021

DME: Family and Community Partnerships

Office of Family &
Community Partnerships

3. Engaging Family and Community Partnerships

Extend student learning opportunities through partnerships between school, home, and the community through engaged family and community partnerships.

Expand and Improve ways to engage, communicate, and partner with families and the community

Develop real-world, authentic opportunities to extend learning.

Title I: Background

Title 1 program originated as the Title 1 of the Elementary and Secondary Act of 1965. It is now associated with Title 1, Part A of the No Child Left Behind Act of 2011 (NCLB).

Title 1 is an entitlement grant that provides federal funding to schools that have low poverty levels. HPS is a Title 1 district which means that at least 40% of our student population has a low poverty level.

Title 1 Parent Involvement Funds support activities that will build the capacity of parents to be active partners in the education of their children.

Annually, approximately 2% of each school's Title 1 School Improvement funds is allocated for Parent Involvement.

Title I: Purpose

Parental Involvement funds (parent activities) are meant to address the training/development needs of parents and enable them to be active participants in the education of their children.

The focus should be placed on building parent's capacity for using effective practices to improve their own children's academic achievement.

Parent involvement funds should NOT be used for activities whose focus is solely entertainment, PTO related activities, or parental incentives.

Who decides how to use funds & restrictions?

- Parent and families determine how best to use these funds. Requires parent voice!

Restrictions:

- Funds CANNOT be used primarily for PTO meetings, entertainment, social activities or parent incentives.
- District policy allows schools to use 25% of the Parent Involvement funds for refreshments offered at these educational events.

Title I: Examples

The following are some examples of the types of parent activities encouraged and supported under Title 1:

- Literacy
- Numeracy
- Parent and family's role in education
- FAFSA
- Filling out college applications
- Reading to your children
- Nutrition and health
- Technology

Title I: FCSSP

Professional Learning: October

- Capture parent voice (i.e. surveys, research);
- Identify planning team (school level);
- Submit necessary paperwork for approval (i.e vendor quotes);
- Market event/activity in advance;
- Provided resources & handouts (i.e. approved vendor list/ planning checklist);
- Title 1 is discussed collectively and during 1:1's; and
- Continuous topic for monthly professional learning and FCSSP 1:1's.

3. Reports

Subject 3.7 Finance & Audit Committee Report

Meeting Nov 16, 2021 - Regular Meeting

Type Information, Reports

Finance & Audit Committee (Wednesday, November 10, 2021)

Members present

Kimberly Oliver, Shonta Browdy, Philip Rigueur

Phil Penn, Maureen Colman, Madeline Negron, Jennifer Hoffman

1. Items for the Regular Meeting

1.01 Dilinger RAD

The committee reviewed the contract and moved it to the regular meeting.

1.02 Cumberland Therapy

The committee reviewed the contract and moved it to the regular meeting.

1.03 TNTP

The committee reviewed the contract and moved it to the regular meeting.

1.04 Intervene K-12

The committee reviewed the contract and moved it to the regular meeting.

2. Financial Sustainability work with ERS

See attached report.

3. Updates

3.01 Year to Date (YTD) Budget Report - through September 2021

See attached report.

4. Progress Monitoring: ESSER II and ARP Spending

See attached report.

MEMO

From: Phillip J. Penn 
To: Dr. Leslie Torres-Rodriguez
Date: November 8, 2021
Re: Strategic Projects – Brief Updates

We continue to make progress on the Finance Strategic Assessment and the Financial Sustainability project. Key milestones during the past month include:

Finance Strategic Assessment

An anonymous survey was sent to 200 Finance customers as means of gauging how well they are supported by the Department. The survey closed Friday, November 5, and we received 71 responses, or about a 35% response rate. Initial findings and commonalities to the answers will be used in the interviews being conducted this week by CliftonLarsonAllen of the Finance staff and of the Cabinet members.

Financial Sustainability Project

We are in the process of building an annual financial model through the year 2029-2030. ERS is working on the expense side of the model, using the past eight years of actual spending as a means of extrapolating into the future. A team of volunteers from the Finance department is working on the revenue portion of the model, with that work further broken down into Federal and State grants, and funding from all other sources. We are utilizing projected enrollment data as a means of calculating what is likely to happen to our existing grants that are dependent on overall student enrollment. This is particularly important with our Federal entitlement grants (Title I, Title II, etc.).

Detailed updates on both projects will be presented to the Finance Committee at the December 15 meeting.

MEMO

Re: September 2021 Financial Results

Attached please find our year to date financial results through the month ended September 30, 2021 period.

Total spending in the month of September across all funds totaled \$31.4 million, raising the year to date spending total to just over \$55 million. Staff salaries and associated fringe benefits make up about 80% of our year to date spending, as this was the first month of the fiscal year with all school-based staff contributing to the salary costs.

Encumbrances increased to \$33.2 million from \$14.3 million in the prior month, with essentially all of the change coming in the tuition line. This is consistent with us encumbering funds for out of district Special Education services, and will grow more substantially in general education tuition as well now that we are past the October 1 'official' state enrollment date.

Largely as a result of the number of vacancies we have across the district and based on everything we no today, we don't feel there is a concern for operating in a deficit for the 2021-22 year. Of course, we will continue to monitor spending closely going forward, especially as our tuition expenses become more fully developed in the coming months.

MEMO

From: Phillip J. Penn 
To: Dr. Leslie Torres-Rodriguez
Date: November 5, 2021
Re: COVID-19 Relief Grant Spending

Through November 4, 2021, Hartford Public Schools has spent or encumbered roughly \$15 million of its COVID grant funds, up \$2.5 million from the month of September. The table that follows summarizes that spending by grant:

Grant	Spending Deadline	Total Grant Award	Total Spent or Encumbered	Change From Prior Month
ESSER I/CARES Act	9/30/2022	\$10,314,679	\$7,958,958	\$427,920
ESSER II	9/30/2023	\$45,730,706	\$4,450,782	\$2,008,993
ARP/ESSER III	9/30/2024	<u>\$98,589,663</u>	<u>\$2,558,879</u>	<u>\$89,481</u>
Total		\$154,635,048	\$14,968,619	\$2,526,394

Several initiatives are in the process of being developed and finalized, which will impact spending later in the fiscal year. However, the challenges we are encountering as a District hiring staff are impacting our COVID spending as well, since a large portion of our targeted spend involves new staff. I believe working with ERS and Cabinet next week in our step-back exercise will help quantify the largest deviations and help refine our planning across the three-year spending period.

Finally, a breakdown of the expenditures in each grant by object code follows on the next three pages.

4. Business Agenda

Subject	4.1 Contract Approval: Intervene K-12
Meeting	Nov 16, 2021 - Regular Meeting
Type	Action
Preferred Date	Nov 16, 2021
Absolute Date	Nov 16, 2021
Dollar Amount	\$3,277,500.00
Budgeted	Yes
Budget Source	Special Funds: ESSER Funds
Recommended Action	Motion that the Hartford Board of Education authorize the Superintendent to execute a contract with Intervene K-12, for the term delineated in the contract, at an amount not to exceed \$3,277,500, ending June 30, 2022.
Goals	Priority: Teaching & Learning

Executive Summary:

Intervene K-12 is an online, virtual tutoring service which offers a comprehensive intervention system that combines research-based learning science, intervention best practices, and smart technology to drive measurable student growth. Intervene was created to assist students, educators, and administrators in achieving sustained academic growth and success. Intervene K-12 will be support. They will be meeting with students 3 times a week for 50 minutes a session, and providing additional synchronous support for the remaining 2 days a week.

Intervene focuses on the following key areas:

- Learner academic growth and success
- Building student confidence and inspiring ownership of their learning
- Providing Teachers & Interventionists tools for efficient and effective interventions
- Equipping educators to accurately identify student gaps by diagnosing misconceptions
- Providing administrators with real-time data to determine instructional effectiveness
- Delivering solutions that allow administrators to plan and drive interventions
- Improving student outcomes on EOC's in the classroom and beyond

Strategic Goal Alignment:

Priority 1.2: High Quality Teaching and Learning

Provide an academic **system of support** to ensure **instruction, interventions, and enrichments** meet the needs of all students.

b. Implement extended day/year calendar design and strategy to provide students with more high quality learning opportunities and teachers

more time to plan and collaborate to meet heightened student needs.

4. Design a district-wide mentoring and tutoring program

Company Overview:

Intervene offers a comprehensive intervention system that combines research-based learning science, intervention best practices, and smart technology to **drive measurable student growth**. Intervene was created to assist students, educators, and administrators in achieving **sustained academic growth** and success. Intervene focuses on the following key areas:

- Learner academic growth and success
- Building student confidence and inspiring ownership of their learning
- Providing Teachers & Interventionists tools for efficient and effective interventions
- Equipping educators to accurately identify student gaps by diagnosing misconceptions
- Providing administrators with real-time data to determine instructional effectiveness
- Delivering solutions that allow administrators to plan and drive interventions
- Improving student outcomes on EOCs, in the classroom, and beyond.

Our Focus: We leverage the latest advances in technology to effectively create solutions that help students grow, educators identify and address student gaps, and support administrators guide instruction with proven results.

Intervene uses these focus areas as the premise for creating educator friendly solutions for schools and districts. Intervene strives to ensure it reveals and gathers key performance indicators and data in an impactful and efficient manner, such that educators can focus on planning and driving classroom instruction.

Results of Work — Intervene has a proud track Record of Success – School districts can rely on Intervene interventions to drive student growth with all students but especially struggling students. In 2020 Intervene K-12 English Learners grew an average of **one language proficiency** from previous year. In 2019, **79%** of the students in Intervene programs that were previously failing passed the EOCs. On average students increase scores by **30%**. **Intervene K-12 serves all student, however has shown significantly higher results with economically disadvantaged students and Black and Latino students.**

COVID -19 & Remote Instruction

We understand that this is a challenging time for school districts and campuses to move traditional K12 class settings to online instruction due to COVID-19. Many of our partners have faced issues with connectivity and communicating with parents and students at home.

Intervene has supported school districts with online live instruction for over 5 years. We have become experts in delivering online instruction. We use the latest technology fused with engagement strategies to ensure students interact and receive high quality instruction. As your partner we would be happy to support you with sharing knowledge on best practices in teaching online.

Hartford Public Schools Challenges/ Solutions

Intervene has worked closely with educators and campuses across the US and has identified some of the challenges faced in the district’s goal of promoting data-driven instruction, effective PLCs, and driving effective interventions.

Below is a list of challenges that Intervene would like to work with Hartford Public Schools to help overcome by utilizing our proposed set of solutions, followed by a detailed description of our **service proposal**.

Challenges:	Solutions:
<p>Challenge: Providing targeted and measured instruction to students who are struggling.</p>	<p>Solution: Targeted / Small Group Online Interventions - Intervene provides adapted instruction, personalized intervention via LIVE online tutor, and tutorial support at scale during the day, after school, and on the weekends based on District and campus needs.</p>
<p>Challenge: Formative Assessments - Assessing students in real-time online to measure student performance, instruction, teacher effectiveness, and curriculum.</p>	<p>Solution: Intervene Formative Assessments (Data Dash) enables administrators to assess students weekly to determine student readiness</p> <p>Assessment data is provided in real-time and formatted with recommendations to take actions to differentiate instruction and provide teacher coaching.</p>
<p>Challenge: Engagement & Attendance – Competing with student attention in an afterschool program. Gaining buy-in from stakeholders, Campus leaders, Coordinators, and Parents.</p>	<p>Solution: Stakeholder Reporting - Enable administrators to review student progress and readiness. Invite Parents to engage.</p> <p>Explore incentives for students to encourage attendance and participation.</p>
<p>Challenge: Progress Monitoring Student Performance - By design, multiple-choice questions tests, do not give insight as to why students chose the wrong answer - in comparison to open-ended questions. Thus, it requires precious time post-assessment to uncover student misconceptions.</p>	<p>Solution: Misconception and Distractor Analyses - creates its own content and release tests. We insert misconceptions/ distractors into the answer choices.</p> <p>Our proprietary algorithms patterns student misconceptions generating analytics based on student responses. Thus, allowing administrators and teachers to save valuable time by not having to dig deep into data and item analysis reviews.</p>

Intervene High Impact/High Dosage Tutoring

Method & Approach - Intervene K-12 is involved with creating national standards for high dosage / high impact tutoring as an advisor with National Student Support Accelerator housed inside of Brown University's Annenberg Institute <https://studentsupportaccelerator.com/> / <https://studentsupportaccelerator.com/people>.

Design Considerations for Effective High Impact Tutoring during the school - An effective High Impact/ High Dosage Tutoring Model should include the following seven elements:

1. Instructors (high quality and trained tutors)
2. Data – Assessments, analytics for evaluation
3. Instruction
4. Learning Integration
5. Equity
6. Safety
7. Cohesion

Student Growth - Measured outcomes

Intervene K-12 has been providing online interventions/ high impact tutoring inside the school districts for four years. The elements of delivery that are key to our success have been to include the following:

- **Assessments** determine student skill deficits locally, school districts different types of benchmarks
- **Content** - tutorials must be adaptable to ensure it addresses concepts in creative ways and research-based methods to ensure student understanding. Developing engaging content
- **Instruction** - is adapted to meet the students where they are. Often students need help in concepts from previous grade levels.
- **Progress Monitoring** - checks for understanding to evaluate instruction and mastery of topics and reporting to teachers, and administrators
- **Parent & Student Engagement** – Especially with remote students or afterschool Parents are vital to the success of the program. Student engagement is arguably the most important stakeholder, thus making the experience enjoyable for the student is a high-priority.

Applying High-Dosage High-Impact Tutoring Design in Practice - Currently Intervene K-12 is conducting a Random Control Testing (RCT) Studies with the National Student Support Accelerator at Brown University at two school districts in TEXAS, Pharr-San Juan-Alamo ISD and Spring ISD, with a focus on high-impact dosage tutoring within the school day. The students selected are Migrant Students, SPED, and English Learners. The studies include Math and Reading subject in 3rd- 11th grade.

High-Impact Online Live Small Group Intervention / Tutoring - Intervene K-12's model for delivering live online group interventions consist of data-driven and targeted skill development along with social-emotional elements of instruction. Online interventions include exit quizzes and progress monitoring tools for teachers, principals, and administrators to review student progress.

Scope of Work/ Proposed Solutions

Tutoring & Instructional Model

Online Live Small Group Intervention / Tutoring

Intervene will be delivering live person led online group interventions. Interventions consist of data-driven and targeted skill development along with social-emotional elements of instruction. Online interventions will include exit quizzes and progress monitoring tools for teachers and principals to review student progress. Intervene will target growth in one or two of the following tested subjects:

Reading and writing and support for English for English Learners

- (1) Intervene K-12 follows a data-driven tutorial/ RTI instruction model.
- (2) Start with an assessment of skills based in Reading
- (3) Students are small grouped into groups of 3 up to 8 students with similar skills gaps including misconceptions and distractors.
- (4) Groups are assigned a course of study to close gaps based on targeted objectives.
- (5) Schedule a sequence of data reviews and feedback sessions with district partners and stakeholders. In those sessions Intervene K-12 will share data, insights, request feedback on programming, share student feedback, and adjust delivery as needed to support district partners.
- (6) Provide teachers and administrators a dashboard for real-time reporting in between data-reviews

Assessments & Reporting

Data Dash – Math & Reading

provides teachers, interventionists, and administrators with tangible, useful, easy to read data. It can be used to run and analyze data from release tests, unit tests, benchmarks, and/or formative assessments. It replaces your traditional data binder and data reports with an easy-to-follow visual that helps teachers plan for their next day, week, or unit.

Traditional data reports after benchmark exams give teachers a large number of pages of data with the next steps being unclear and often lead to non-usage. Data Dash empowers teachers with sorted small groups for tutoring/intervention. Reports auto group students and identify which objectives and misconceptions they need to reteach. It also identifies foundational gaps in student understanding of grade-level content. Data Dash brings together and uncovers useful analytics missing from other databases and test prep books, empowering teachers and administrators with insights into their students' challenges and strengths.

Reporting Features:

- Online Student Assessment Tests & Analyses
- Customizable assessments -
- Auto segmentation of students by misconception/ distractor analytics
- Teacher/ interventionists data dashboard (printable)

English Learning Assessments

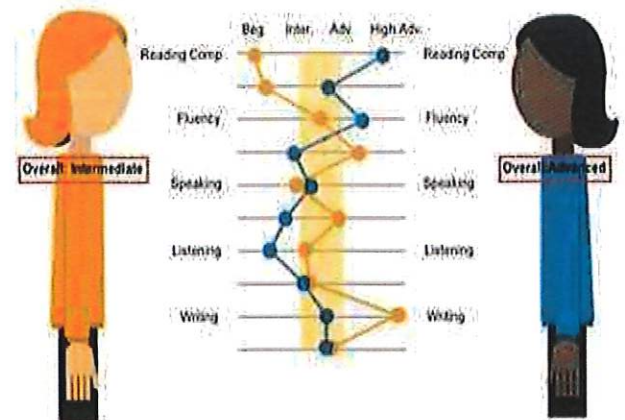

Intervene K-12's English Language Learning support program evaluates and drives English Learner proficiency in academic English. Program uses similar rubric Proficiency Level Descriptors as state standardized tests. Web-based program designed to both assess students and provide practice

Reporting – English program provides data on student proficiency level. Gives early indicators of Success and provides data on student academic growth. English Program can also be used for teacher training on use of PLDs

Areas of Focus:

- **Listening**
- **Speaking**
- **Reading** comprehension
- **Writing**

Fluency assessments are recorded for teacher post review.

Tutorial Instruction & Content:

Intervene K-12 small groups the students based on the skill deficits as described above. The lessons are then aligned to students. Lessons are aligned to the **state standards and will integrate content objectives from its partners as needed.**

Social Emotional Learning

Intervene K-12 takes a holistic approach to instruction that includes SEL surveys, assessments, and lessons. Students have suffered emotionally through the COVI-19 pandemic it's important for to understand student critical needs and provide reporting to teachers and administrators.

Why include SEL - One of the most unique elements of Intervene's K-12 Program Model is our intense focus and inclusion of Social Emotional Learning (SEL) throughout our entire delivery model. According to the peer leader in the field, the Collaborative for Academic, Social, and Emotional Learning (CASEL), "social and emotional learning (SEL) is an integral part of education and human development. SEL is the process through which all young people and adults acquire and apply the knowledge, skills and attitudes to develop healthy identities, manage emotions and achieve personal and collective goals, feel and show empathy for others, establish and maintain supportive relationships, and make responsible and caring decisions. SEL advances educational equity and excellence through authentic school-family-community partnerships to establish learning environments and experiences that feature trusting and collaborative relationships, rigorous and meaningful curriculum and instruction, and ongoing evaluation. (CASEL, 2020.)

Workforce Readiness

Intervene K-12 is working with companies to integrate workforce readiness and exposure for students that are struggling and need additional supports. Intervene K-12 is integrating information about career pathways, salaries, and insights to roles as part of instructional pedagogy that helps in developing student's, "Grit", towards studies.

Intervene K-12 will occasionally show students videos of professionals interviewed in their workplace describing how they got to their roles and how they may have overcome challenges. Intervene K-12 works to ensure that interviews reflect similar demographics of the students participating.

Research - Why Include Workforce Future and Skill Force Readiness Preparation
Promising new research out of Harvard University's interdisciplinary Project on Workforce highlights important opportunities for corporations, nonprofits, schools, and higher education need to engage in more interdisciplinary models to meaningfully connect post-secondary education with employment. In order for our nation to build a future where social and economic opportunity are available for all, it is imperative that we develop equitable job pathways that integrate work and learning. As previously identified in the section on how the Covid-19 pandemic disrupted the traditional school model, low-income communities and communities of color disproportionately experienced this economic fallout and will encounter new systemic barriers as a result to workforce entry and participation (Fuller et al., 2021). Armed with this information, Intervene K-12

purposefully integrates soft and hard skills within our tutoring platform to ensure that the student populations who face the steepest barriers to entry are adequately prepared to compete with students from higher socioeconomic status backgrounds.

Training & Professional Development Modules

Adapted professional development modules are provided to develop teacher instructional capacity and administrator leadership skills to drive sustainable student academic growth.

PD Modules utilize actual student and instructional data from Intervene implemented programs, such that sessions are customized to partner. PD sessions include strategies, action plans, and steps to progress monitor improvements.

PD Modules Options include:

- PLCs
- Data driven instruction for Reading
- Online / remote instruction engagement
- Effective Small group Intervention (Tier 2 Instruction)
- Effective Benchmark / Assessment programs

PD Modules are delivered remotely and in person to accommodate schedules and partner logistics.

Targeted & Measured Results:

The goal of our partnership is to **drive measurable and sustainable** student growth using Intervene's comprehensive intervention system. Intervene will work to develop relationships, buy-in, gather feedback, and make adjustments to delivery as needed to ensure success. The following Key Performance Indicators (KPIs) are recommended to determine success:

To Measure Student Growth, Intervene will:

- Progress monitor students participating in tutorials/ targeted interventions through exit tickets
- Compare start and end of program student performance from assessment data
- View data on usage and student engagement

To Monitor program effectiveness, Intervene will provide:

- Real-time data to progress monitor student growth and progress
- Clear and timely communications and transparency of student outcomes
- Ease of use, relevance to instruction, and the efficacy of the program

Implementation:

In preparation for implementation and throughout service delivery, Intervene will work closely with Hartford Public Schools designated leadership to ensure a seamless and successful engagement. Intervene's implementation team will work through the following details:

- Integration requirements with 3rd party applications and rostering
- Scheduling of students into intervention / tutoring cohorts
- Administration of assessments and data review
- Parent and Student at home support
- Training for administrators and instructional staff

Timeline & Support Model

Pre-Implementation

- Stakeholder Kickoff
- Technology Integrations
- Rostering & Scheduling
- Teacher and Administrator Onboarding

Delivery

- Baselines/ Benchmarks
- Engagement Teams – Parent liaison (If parent participation) and Teacher teams
- Data Review
- Instructional plan reviews
- Schedule check-ins, PDs, PLCs, and data reviews

Ongoing Check ins & Partner Support

- Engagement Teams – (Parent & Teacher teams)
- Data Review and Reporting
- Instructional updates
- Feedback Sessions

Closing Out:

- Post-Assessments
- Final Reports
- Final Prep for Testing season
- Lesson Learned
- Planning for next phase of support

Technology & Equipment:

Hardware:

- **Web-enabled device** - Students will need to connect using laptops or desktops with internet access.
- **Camera** – Intervene recommends desktops or laptops include a camera for video/ live interaction in online instruction
- **Headsets** - Students will need a headset and microphone with noise cancellation. Intervene recommends using Califone 3068MUSB, which is widely used for online English assessments.
- **Wireless Pens** – Intervene recommends using wireless pens for online instruction. The pens allow students to use any surface to write on the virtual whiteboard. Intervene will procure these pens for clients. Please reference the pricing section.

Accessing Program

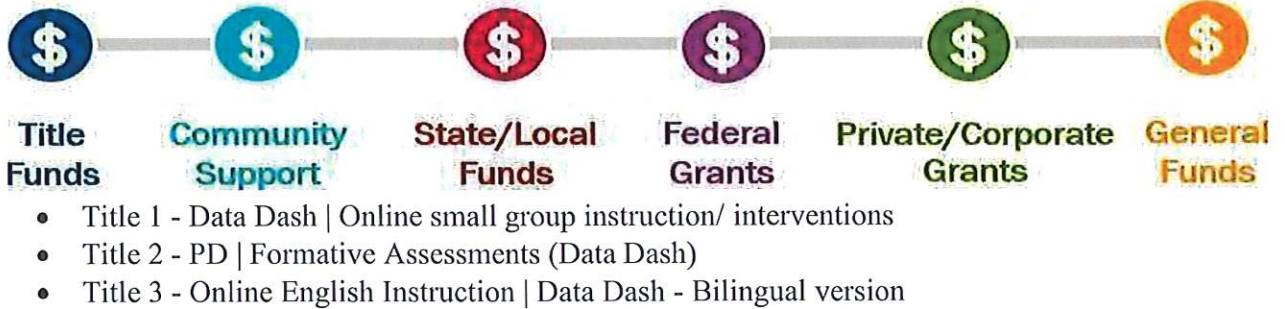

- **Internet Browser** - Intervene's programs are web-based. There are no downloads required. Services are best delivered using a Chrome Browser. Students will not be able to access through Internet Explorer
- **Internet connection** - broadband wired or wireless (3G or 4G/LTE)
- **Bandwidth Recommendations** - 2 Mbps upload, 2 Mbps download

Funding Sources:

Intervene partners often ask for guidance in determining the budget line items for purchasing our comprehensive solutions. Thus, we are providing a breakdown for your reference.

ESSER 2 & 3 Funding for academic recovery

Blended Funding Approach
to strategically budget year-over-year

Pricing:

The pricing below is based on support for small groups. Pricing bundles in technology, PD, software licensing, training, and data reviews and reporting. Includes 22 weeks of support

4500 Students

3 Days of Tutoring	Price Per student
3 to 1	\$ 1,498
4 to 1	\$ 1,141
5 to 1	\$ 728

Pricing Bundles Includes

- Small group Tutoring
- Data Dash Assessments (Progress Monitoring and Reporting)
- Spanish Assessments
- 3rd party Technology Integrations (Rostering & SSO)
- Data Reporting
- **English Learners Assessment support included for all students including non-tutored students**

Includes extra days of literacy, English Learners, or quiz activities aligned to tutorials

Total for 4500 students \$3,277,500

4. Business Agenda

Subject	4.2 Contract Approval: The New Teacher Project
Meeting	Nov 16, 2021 - Regular Meeting
Type	Action
Budget Source	Special Funds: ESSER Funds
Recommended Action	Motion that the Hartford Board of Education authorize the Superintendent to execute a contract with The New Teacher Project, for the term delineated in the contract, at an amount not to exceed \$217,127, ending June 30, 2022.

Executive Summary:

In response to the Urban Schools Human Capital Academy's (USHCA) audit of the Office of Talent Management (OTM), the District would like to partner with TNTP to lift several of the findings from the audit. Specifically, this short term partnership will support OTM in positioning the department to execute an aggressive hiring and onboarding process for the 22-23 school year.

A key goal of this partnership is to improve the candidate experience by reducing the lengthy hiring process and ensuring that OTM provides a single point of contact and consistently high-quality services for principals. The partnership aims to:

- Improve the quality of the applicant pool and streamline application and hiring efforts
- Drive policies and processes to enable earlier hiring of teachers and principals
- Identify and track clear metrics and goals for the department/teams/individual roles that align with the district's overall goals and overall management objectives
- Improve proactive and strategic talent management support to principals.

TNTP Proposal to HPS_Talent Strategy_October 2021 Final.pdf (299 KB)

Proposal to Hartford Public Schools

November 2021
Talent Strategy

Introduction

Year after year, schools struggle to find enough high-quality teachers. As veteran educators retire, universities and preparation programs graduate fewer new teachers, and community needs shift, districts face fierce competition for individuals with the skills and mindsets needed to succeed in the classroom. A lack of racial and ethnic diversity in the teacher workforce adds to this challenge, especially for systems that serve large numbers of students of color and that want to build instructional teams that reflect their student populations. To ensure every student has access to diverse, talented teachers, school systems need a deep understanding of the root causes of their unique talent challenges and a strong talent strategy, that is grounded in data and driven by a commitment to providing every student with excellent educational opportunities.

A growing body of research shows that a more diverse teacher workforce leads to better outcomes for all students—especially students of color. Specifically, research has found that students of color who have teachers of color are more likely to be enrolled in gifted programs, less likely to be suspended or drop out, more likely to aspire to attend a four-year college, and more likely to achieve at higher levels.¹ Yet, while nearly half of American public-school students are students of color, approximately 80 percent of teachers are white.² There's a significant body of research pointing to the benefits a more diverse workforce would have on all students.³ Yet those benefits have not been fully realized, again because most of America's public-school teachers are white.

In *The Opportunity Myth*, we found that among classrooms where students were at least 75 percent Black or at least 75 percent Latinx, 66 percent of teachers who were the *same* race or ethnicity as the majority of their students had high expectations. In classrooms with similar student demographics but with teachers who were a *different* race or ethnicity from the majority of the class, just 35 percent reported high expectations. In addition, since teachers with lower expectations were more likely to provide weaker assignments and ask less of their students, low expectations translated into some groups of students getting less access to grade-appropriate assignments and strong instruction. This inequitable allocation of key resources in turn produces inequitable outcomes for students. Our recent report underscores the urgency of not only raising expectations for student achievement, but also in ensuring teachers reflect the cultural diversity of the students whom they serve.

Implementing a streamlined, laser-focused talent strategy is more important now than ever before. As we demonstrated in *Missed Opportunities* (2003), the districts we studied lost 30 to 60 percent of all applicants—and two of three applicants holding licenses in shortage subject areas—because of slow and inefficient hiring practices. The candidates ultimately hired are less promising than those lost. And conversely, as we demonstrated in *Greenhouse Schools* (2012), if schools hire a majority of their new teachers early, they typically have stronger instructional culture and better student outcomes. With the coronavirus pandemic upending traditional approaches to recruitment, hiring and retention and placing unexpected burdens on staff capacity and financial resources, systems will need to be deliberate about how and where they spend their human capital energy. A strategic recruitment and staffing plan can help systems foresee and meet talent needs efficiently and effectively, so that every student is afforded the excellent educations they deserve.

Scope of Work

TNTP proposes to partner with Hartford Public Schools to **plan to implement a robust talent strategy** over the coming year that will set the district up for long-term success in cultivating a talented, diverse pipeline of teachers to HPS. This work will build on the key findings and recommendations stemming from USHCA's talent diagnostic, and

¹ Dee, 2004; Gershenson, Hart, Lindsay & Papageorge, 2017; Grissom & Redding, 2016; Lindsay & Hart, 2017.

² Dee, 2004.

³ Cherng, H. and Halpin, P. (2016). The Importance of Minority Teachers: Student Perceptions of Minority Versus White Teachers. *Educational Researcher*, 45 (7), 407–420. Retrieved on July 31st, 2018 from <http://journals.sagepub.com/doi/abs/10.3102/0013189X16671718>.

will leverage the ongoing work of the Chief Talent Officer to align the organizational capacity within the Office of Talent Management to a talent strategy for HPS.

Specifically, the USHCA talent diagnostic laid out nine recommendations for the Office of Talent Management, and recommended the district to focus on the following as areas of top priority:

- ✓ Improve the **quality of the applicant pool and streamline application and hiring efforts**
- ✓ Drive **policies and processes to enable earlier hiring of teachers and principals**
- ✓ **Identify and track clear metrics and goals** for the department/teams/individual roles that align with the district's overall goals and overall talent management objectives
- ✓ Improve **proactive and strategic talent management support to principals**

In response to the key findings and recommendations from the diagnostic, Tntp will support HPS to develop a talent strategy that supports the district in implementing an efficient and robust talent cycle this year, while also laying the foundation in planning for the long-term talent strategy. This will include improving the candidate experience by reducing the lengthy hiring process, which is approximately 45 days currently, and ensuring that OTM's organizational structure provides a single point of contact and consistently high-quality services for principals.

Specifically, Tntp will partner with the Chief Talent Officer to facilitate a series of strategic planning and design conversations to:

- Develop clear and concrete goals for the talent management cycle this year, creating data tracking tools, and establishing routines to track progress to goals
- Create a talent management timeline and project plan for the year that reflects a clear strategy and action steps central to achieving the goals. For example, action steps Tntp will support HPS to implement may include but are not limited to:
 - Developing key messages and core values to be communicated in recruitment messaging;
 - Implementing evidence-based practices to cultivate candidates through the interview and hiring process to ensure offers translate to hires;
 - Designing and implementing a competency-based centralized selection process, norming selectors, and providing anti-bias training;
 - Planning for the smooth operations and logistics of selection, hiring, and onboarding experiences throughout a candidate life cycle;
 - Providing support and capacity-building to school leaders and other hiring managers to implement best practices for recruiting, cultivating and selecting talent into new roles
 - Creating an efficient onboarding experience that sets all new employees up for success.
- Leading district staff through design conversations to envision new or revised talent processes, leveraging best practices and strong models from our work nationally (e.g. train the trainer session on recruiting diverse candidates, reducing bias in selection, talent data tracking and analysis, etc).
- Knowledge-building sessions focused on key areas of opportunity in talent management for OTM staff, including artifact reviews from our work across the country and within the region to support talent strategy alongside analysis of Hartford artifacts
- Creating materials and content that codify core practices, learnings, and recommendations into end of project report or manual, including suggested next steps, key data points to track, and resources
- Visioning conversations to define what a successful talent management system looks like in the long-term for HPS and establishing a clear theory of action to achieve that vision over time
- Planning for and facilitation of data stepbacks to monitor progress towards goals and begin to track the outcomes of key initiatives over time

As a result of this work and our partnership together, we hope to achieve the following outputs:

- OTM staff will utilize routines and systems to track progress towards key metrics to ensure a robust, high-quality pipeline of talent for open positions.
- OTM staff will have a set of key messages and core values about the experience of working at HPS that will be leveraged in all cultivation materials.
- OTM staff will have high-quality tools (i.e. application, interview templates, screening tools, norming tools, etc) to ensure a competency-based, fair and equitable application and centralized selection process for all candidates for HPS positions.
- OTM staff will have clear routines and processes for all operations and logistics related to moving candidates through the life cycle, from recruitment to onboarding.
- HPS school leaders will receive training and support on how to leverage the resources and services from OTM to support school-based hiring for the 2022-2023 school year.

Together, this work will lead to:

- Candidates for HPS positions will experience a more efficient and consistent hiring and onboarding experience as they pursue new job opportunities with the district, as evidenced by fewer days spent from point of application to point of hire.
- New hires to HPS for school year 2022-2023 will be higher quality and more diverse, as evidenced by data collected during the application, selection, and staffing process.
- School-based hiring teams will report increased satisfaction with the services provided by OTM in support of their talent needs for the upcoming school year.

Timeline and Budget

TNTP proposes to complete the strategic planning work detailed above over a period of six months, from November through May.

This project will include a TNTP Director, who will serve as the primary point of contact and will oversee strategy development and day to day management of the full scope of the partnership, and a TNTP Senior Manager who will lead design conversations and knowledge building around core talent functions and best practices and support content and materials creation. The team will be supported by a TNTP Partner. We estimate the total cost of these services to be **\$217,127**.

What We Bring to the Partnership

We partner with public school systems to attract and train talented teachers and school leaders, ensure rigorous and engaging classrooms, and create environments that prioritize great teaching and accelerate student learning. We work at every level of the public school system, partnering with school districts, state departments of education, and charter school networks. Since 1997, we've partnered with more than 200 public school districts, charter school networks and state departments of education. We offer a range of support to our partners, from strategic advice to multi-year execution. Today, TNTP is active in more than 30 cities.

Contact Information

TNTP is excited to partner with Hartford Public Schools to support the development of a comprehensive strategy and approach to talent, with a focus on diversification of the workforce and ensuring equitable access to great talent for students and families. Please reach out to Shauna Hart, Partner at shauna.hart@tntp.org or 860-573-3406 for questions and to discuss this proposal.

4. Business Agenda

Subject	4.3 Contract Approval: DilingerRAD
Meeting	Nov 16, 2021 - Regular Meeting
Type	Action
Budget Source	Special Funds: ESSER Funds
Recommended Action	Motion that the Hartford Board of Education authorize the Superintendent to execute a contract with DilingerRAD, for the term delineated in the contract, at an amount not to exceed \$136,000, ending June 30, 2023.

Executive Summary:

Over the past 3 years, the Hartford Public School system has invested an immense amount of time, money, and resources to implement the Data Wise Improvement Process throughout all of its schools and data teams. This collaborative process will provide a long-term impact to both students and staff across the district if it continues to be utilized as intended. Currently, the Office of Performance and Accountability lacks the time or resources to develop and implement a centralized system to help manage the district Data Wise process, monitoring school and department data teaming. Dillinger Research and Applied Data can help to ensure the right system and processes are implemented.

DillingerRAD will

- create a sustainable system to identify and track all data teams throughout the district
-
- Curate and maintain data team artifacts, examine for quality and report to the Chief Performance Officer and Superintendent
-
- Design differentiated training in Data Wise continuous improvement, in response to data from multiple indicators
-
- Report the extent to which the Data Wise practices are integrated with integrity into the core work of the schools
Data Wise practices by data teams
-
- Administer self-assessments and report results, twice annually
-
- Schedule, coordinate, and support staff Data Wise training in coordination with Data Wise Executive Team and District Data Wise Coaches
-
- Connect data teams to coaching support, training and resources
-
- Schedule Data Wise Advanced Training
-
- Submit data for incorporation into data warehouse and analytics system (DecisionED)
-
- Collaborate with Harvard University Data Wise Project around district prioritized research endeavors

Strategic Priority Alignment:

This work is an essential component of Priority 4: Skillful Staff and Effective Operations, Core Strategy 2: Enhance collaboration and teamwork to support innovation, collective inquiry, and continuous improvement.

File Attachments Hartford Data Wise Proposed Project, methodologies and approaches.pdf (200 KB)

Hartford Public Schools Data Team / Data Wise Support RFP

Executive Summary

Over the past 3 years, the Hartford Public School system has invested an immense amount of time, money, and resources to implement the Data Wise Improvement Process throughout all of its schools and data teams. This collaborative process will provide a long-term impact to both students and staff across the district if it continues to be utilized as intended. Currently, the Office of Performance and Accountability lacks the time or resources to develop and implement a centralized system to help manage the district [Data Wise process](#), monitoring school and department data teaming. [Dillinger Research and Applied Data](#) can help to ensure the right system and processes are implemented.

Summary of Qualifications, Background, & Experience

[Dillinger Research and Applied Data](#) (DillingerRAD) has the experience, expertise, and knowledge needed to ensure that a system to manage and track the Data Wise improvement process is implemented with fidelity. DillingerRAD's staff bring over a decade of teaching experience, extensive research and analysis experience in the educational setting, a knowledge of coding, database and tool design, development, and implementation, as well as an ability to incorporate multiple voices and perspectives within a solution, all while keeping the needs, challenges, and context of our partners in mind. Our team members have extensive experience in Hartford, having worked within various high schools over the past 2 years as well as being employed as a Hartford Public School teacher. Additionally, our team has experience with the Data Wise process and we have a certified Data Wise coach on staff who has worked extensively in the Boston Public School District, focusing on coaching schools directly, engaging in systems-level inquiry cycles, and monitoring and sustaining the implementation of the process across a large network of schools.

Our previous and current work with partners has provided DillingerRAD with the experience in undertaking similar projects. We are currently engaged in a multi-year partnership with the Connecticut Youth Service Association (CYSA), the non-profit umbrella organization of Connecticut's Youth Service Bureaus (YSBs). YSBs are independent agencies across the state that focus on diversion, working with at-risk children, youth and families. Each YSB must serve the specific needs of their communities, utilizing the resources at their disposal. As such, each organization has a slightly different focus and approach to the work at hand. Although each organization is unique with regards to focus and function, all 104 YSBs across the state are working to provide at-risk youth with the support and services they need to succeed. Currently, the YSBs operate independently with no shared data tools or processes that allow for a system wide analysis of trends, challenges, and opportunities.

HARNESSING DATA, IMPROVING OUTCOMES

203.671.7334 / kmcdonald@DillingerRAD.org / www.DillingerRAD.org

To address this challenge, CYSA has partnered with DillingerRAD to work towards a unified data collection and management process which will enable a system level analysis of support and service effectiveness. Through direct work with multiple YSBs across the state, DillingerRAD developed [recommendations for CYSA](#) to address and build common processes, meaningful and actionable intermediate and long-term outcome metrics, and seamless data sharing and usage strategies which will enable the entire network of organizations to leverage available data to answer critical questions about programs and evaluate youth outcomes. All this work began with a detailed landscape analysis and extensive stakeholder interviews to help DillingerRAD understand the context of the work and develop a solution that would enable data driven decisions to be made while ensuring that the solution would work for all organizations in Connecticut.

Beyond the Connecticut context, DillingerRAD has managed multiple complicated projects involving numerous stakeholders and thoughtfully structured them in a way that brings focus and clarity to the work. DillingerRAD is currently partnered with Indianapolis Public Schools (IPS) working with several departments to connect all of their data needs into a single cohesive and usable system. Until now, IPS departments have functioned independently, drawing on a variety of software systems, skills sets, and data sources. This piecemeal approach has limited IPS' capability to function in a seamless and efficient manner. DillingerRAD is working to create an standard ETL (Extract, Transform, Load) process that will enable the coordinated ingestion, analysis, and sharing of data from various stakeholders, which will ultimately streamline the work being done and increase meaningful data usage across the system. The work with IPS has provided DillingerRAD with the understanding and experience to develop a solution that is impactful for all, while simultaneously staying within the context of the needs and perspectives of all stakeholders.

HARNESSING DATA, IMPROVING OUTCOMES

203.671.7334 / kmcdonald@DillingerRAD.org / www.DillingerRAD.org

Scope of the Work

The overall work required to support this initiative will be broken down into two broad phases. The **first phase**, which will start as soon as possible and run through the rest of the 2021-2022 school year, will focus on understanding the current context of the Hartford Public Schools landscape while designing, developing, and implementing a standardized district wide Data Wise process utilized across data teams. The process will be designed to utilize a consistent set of tools and systems that currently exist within Hartford Public Schools and will endeavour to answer two broad questions:

1. What steps and to what fidelity are data teams across Hartford Schools using and leveraging the Data Wise process?
2. To what extent do Data Teams understand the steps in the Data Wise process and how to implement them with efficacy?

Part of the work done through surveys and interviews will be to develop and align on a set of metrics that help answer the aforementioned questions. Basic intermediate metrics like attendance at meetings, meeting dates and topics (i.e. tracking what step of the process the team is on), agendas, artifact completion and quality ratings, as well as data utilized, can help provide transparency around implementation but other data (e.g. team observations, meeting products, etc...) will need to be collected to further explain levels of understanding. The ultimate goal and deliverable for this phase is to develop a way to track and report on the fidelity of implementation of the Data Wise process.

The **second phase** of work will begin in the summer of 2022 through the 2022-2023 school year and will continue to build upon the process and tools built out in the first phase. Once we understand the scope of high quality implementation of the process, we will provide ongoing training around the systems, tools, and processes that we develop to support implementation. We then will shift our focus from measuring the level of implementation to the level of impact of the Data Wise Improvement Process. Measuring impact across a district is a challenging endeavor and will first require a shared understanding of what impact means, and how data teams expect to achieve that impact. Once there is a shared understanding of impact, work can be done to track and measure progress of data teams through the Data Wise process. Due to Hartford's work around a shared data warehouse, the second phase will focus on connecting and integrating data across numerous systems to provide a more holistic picture of implementation and impact. Work will be done to develop ways to leverage current tools (e.g. Decision Ed, PowerSchool) to track and understand the impact of data teams engaging in the Data Wise Improvement Process within their schools.

Milestones, Deliverables, & Project Schedule

<i>Milestones</i>	<i>Approach and Deliverables</i>	<i>Estimated Schedule</i>
<i>Phase I</i>		
<i>School/Data Team Landscape Analysis</i>	Assess the current landscape of Hartford Public School's data teams (through surveys and interviews) understanding the extent to which data teams are operating, how much Data Wise is being utilized, as well as what tools/resources are being utilized across the district.	Dec. 2021-Jan. 2022
<i>District System Landscape Analysis</i>	Assess and understand the various data tools, resources, and components of the general data ecosystem that exists within Hartford Public Schools.	Dec. 2021- Jan. 2022
<i>Process Design, Buildout and Implementation of Standardized Process</i>	Utilizing information gathered through the Landscape Analyses, design, develop, and implement standard tracking processes with the intent of adoption starting Semester 2.	Jan. 2022- Feb. 2022
<i>Training</i>	Provide virtual and in person training to schools and data teams around the use and tracking of Data Wise implementation.	Feb. 2021- Mar. 2022 / Aug. 2022 - Sep 2022
<i>Dashboard/Report Buildout</i>	In concert with the process design and implementation, interviews with various stakeholders at the district level will be conducted to understand the needs around district level aggregation of Data Wise implementation. Through that collaboration a set of dashboards & reports will be designed, built, tested, and refined.	Jan. 2022- Jun. 2022
<i>Phase II</i>		
<i>Understanding & Measuring Impact</i>	Following the roll out of a standardized process to collect implementation data, the work will build towards connecting implementation data with student data to track and measure the impact of data teams across the district.	Jun. 2022-Jun. 2023

HARNESSING DATA, IMPROVING OUTCOMES

203.671.7334 / kmcdonald@DillingerRAD.org / www.DillingerRAD.org

Fee Proposal

The staff at DillingerRAD will carry out both phases of work detailed above. There will be three Project Positions to handle the work across both years. The table below covers position descriptions and responsibilities for the **entire project**, estimated time required to complete the work and the project budget for each position.

<i>Project Position</i>	<i>Position Description & Responsibilities</i>	<i>Budget Hours(Cost)</i>
Nick Stellitano (Project Lead)	Experienced manager overseeing the entire project including landscape analysis, stakeholder engagement, data analysis, development of dashboards/tools and system design and buildout. Lead would also oversee development of deliverables. Expertise in programming and data visualization.	750hrs (\$75,000)
Data Specialist	Provide support around the landscape analysis, stakeholder interviews, data cleaning, and in person training and consultations.	500hrs (\$40,000)
Data Wise Coach	Provide regular support and insight around the Data Wise process to include providing consultation around implementation metrics, assessment of Data Wise implementation fidelity, and training.	210hrs (\$21,000)
<i>Budget Totals</i>		1460hrs (\$136,000)

4. Business Agenda

Subject	4.4 Contract Amendment Approval: Cumberland Therapy
Meeting	Nov 16, 2021 - Regular Meeting
Type	Action
Dollar Amount	\$600,000.00
Budget Source	General Funds
Recommended Action	<p>Motion that the Hartford Board of Education authorize the Superintendent to amend the contract with Cumberland Therapy, for the term delineated in the contract, for the additional amount of \$600,000, ending June 30, 2022.</p> <ul style="list-style-type: none">• Cumberland Therapy Services, LLC will be contracted to provide paraeducator support to mandated Hartford Public Schools students who require adult support on their IEP. Due to a shortage of paraeducators, it is necessary to utilize this service to ensure compliance with state and federal education guidelines.• Hartford Public Schools has worked with Cumberland Therapy Services, LLC for the past several school years and has had a very successful relationship. They have been able to fill all our requested positions in a timely manner, with their highly skilled and professional staff.• Hartford Public Schools has contracted with other companies in the past, but have had issues filling vacancies, causing delays and risking compliance issues.• During the 2021-2022 school year, we would contract for 20 paraeducators with Cumberland Therapy Services, LLC. This contract is economical in that we pay the company a flat fee, and do not pay for their benefits.• The cost is paid from existing salary lines, from the positions that could not be filled.• Original contract was approved by the board on July 20, 2021 for \$925,000, for Language, Speech and Hearing Pathologists.

4. Business Agenda

Subject	4.5 Resolution: Temporary Suspension of Policy
Meeting	Nov 16, 2021 - Regular Meeting
Type	Action
Fiscal Impact	No
Recommended Action	Motion that the Board of Education, pursuant to Policy 9314, Suspension of Policies, Bylaws, Regulations, temporarily suspend Policy 9310, Development, Distribution and Maintenance of Manual of Policies, Regulations, Bylaws, for the purpose of voting on the policies listed in agenda item 4.6.

"This page [is] intentionally left blank."

4. Business Agenda

Subject 4.6 Adoption of Policies en masse policies - Recodification and Legal Reference Updates

Meeting Nov 16, 2021 - Regular Meeting

Type Action

Recommended Action Motion that the Hartford Board of Education adopt the policies listed below.

The policies being adopted contain only re-codification (numbering) and legal reference updates.

Policy Title	Number	District's Former Number
Communications with the Public	1100	1110
Parent Involvement	1110.1	1205
		5123

4. Business Agenda

Subject	4.7 Facility Use Agreement: Hope Academy 2
Meeting	Nov 16, 2021 - Regular Meeting
Type	Action
Dollar Amount	\$72,000.00
Budget Source	Special Funds: ESSER Funds
Recommended Action	Motion that the Hartford Board of Education authorize the Superintendent to execute the Facility Use Agreement with the Boys & Girls Club, for Hope Academy 2, for the term delineated in the agreement, ending June 30, 2022.

As part of the HPS Strategic Operating Plan and the CSDE's authorized uses for the ARP/ESSER funds*, the district will expand the Hope Academy, and house Hope Academy 2 at the Boys & Girls Club (BGCH)

The facility use agreement is for 6 months, (December 2021 – June 2022) for \$72,000. Funding was allocated with the ESSER/ARP funding.

The cost will go to incremental utility costs for the hours the school is in the building, general wear & tear on FF&E (Furniture, Fixtures and Equipment). The Boys and Girls Club also gives HOPE Academy students (1 and 2) membership at no cost. Also, BGCH provides financial literacy and workforce readiness programs and activities during the school day, and provides staffing to implement a variety of programs and services to students at no additional cost. BGCH also provides HOPE Academy students paid internships during the school year and summer. The students and HPS staff will have access to BGCH's College & Career Center, Computer Lab, Arts & Crafts Room, Music & Drama Room, Teen Center, and gymnasium.

The HOPE Academy offers students academic credit in core content classes (English, Math, Science, Social Studies) taught by certified staff trained in project-based learning. It allows students to participate in internships and programming that helps them lead healthy lifestyles, develop good character and citizenship, and achieve academic success. Targeted students are experiencing behavior difficulties in the larger school setting and need a temporary smaller setting. The goal is to transition the student back to the high school with recovered credits and coping/management skills.

Hope Academy 1 supports students from HPHS at the Sigourney Street Boys and Girls Club, and now Hope Academy 2 will support students from Weaver and Bulkeley High Schools at the South End Boys & Girls Club.

- * 1. Academic Supports, Learning Loss/Acceleration/Recovery: the supports must be targeted and in response to learning loss assessments. Vulnerable populations will have to be prioritized.
- 2. Family Community Connection: initiatives to engage families

"This page [is] intentionally left blank."

4. Business Agenda

Subject	4.8 Approval of Minutes (10/19/2021)
Meeting	Nov 16, 2021 - Regular Meeting
Type	Action, Minutes
Recommended Action	Motion to approve minutes of the October 19, 2021 Regular Board Meeting.

Regular Meeting (Tuesday, October 19, 2021)

Members present

Ayesha Clarke, Craig Stallings, Kimberly Oliver, Shonta Browdy, AJ Johnson, Jim Shmerling

1. Opening

1.1 Call to Order

1.2 Roll Call

1.3 Opening Statement

2. Dialogue Session

Information: 2.1 Public Comment

Victor Cristofaro, Principal at Burns. Unions asked for safe/secure environment, partnership with cabinet, clear health protocols, respectful climate; doesn't feel any of this has happened. Wants Superintendent/cabinet to work with them.

Carol Gale, President of the Hartford Federation of Teachers, stated that resignations are high across the country/industries. Staff now do not have the same benefits/opportunities that she did through her career with HPS. Need to show appreciation for staff, help with workloads, etc. to retain staff in collaboration with union leaders.

Shelly Davis, president of the Paraeducator's union, echoed Mr. Cristofaro's comments, that union demands have not been met. Communications are unclear, staff don't feel safe. There are two paras who worked during summer that have not been paid. Board needs to ensure students and staff are given support necessary to succeed. Encouraged Board members to shadow employees. Requesting Superintendent/cabinet work with unions to improve working conditions.

Raquel Calderon, spoke on supporting the unions and everything they're asking for. Many teachers are not happy and are looking to leave the district. Need better benefits. Need more paras. Need more 1:1 help for students. Not enough substitutes because pay is not high enough.

Lisa Kessler, Special ed teacher in HPS since 1988. Students are being asked to use ipads for speech and language therapy after teacher left. Already had challenging case loads and since losing staff it's even more unmanageable, no planning time. School has lost many teachers this year. What is being done to attract and retain teachers? Need to retain longevity bonus. Believes more teachers will resign unless something is done.

Wilfredo Medina, Representing School Safety Officers. Has been SSO for 34 years. Has been assaulted many times, has permanent back injuries. No matter what happens SSOs continue to come to work and keep people safe. SSOs deserve a respectable contract.

Mario Robles, SSO union secretary. More student assaults/lockdowns/etc. TikTok challenges have been difficult. SPOs have been confiscating a lot of weapons. Substance abuse problems in schools. Staff and officers are being assaulted. Staff absences are increasing, more students in schools with no direction. Needs Board to support staff.

Davey Velez, SPO President. Same points as Cristofaro, Board/District have not met union demands. Superintendent/Cabinet need to work with unions to create better working conditions.

Tiffany Moyer-Washington, Teacher. Feels tired and overworked. Work day is too long, pay is too low. Deserve more than insignificant bonuses. Excessive amounts of training. Job is emotionally and physically draining. Need a half day a month to collaborate with colleagues. Need autonomy to make PD decisions. Need more time, not more training. Teachers need time to listen, reflect, and plan.

Sherwin Haynes, Spoke to support HPU contract

Raquel Smith, Spoke to support HPU contract

Belkis Guzman Spoke to support HPU contract

Cauleen Bennett, Spoke to support HPU contract

Damaris Bolorin, Spoke to support HPU contract

Milagros Vega, Spoke to support HPU contract

Rosanna Davalos, Spoke to support HPU contract

Imelda Barajas, Spoke to support HPU contract

Edwin Espinoza, Spoke to support HPU contract

Elizabeth Rivera, Spoke to support HPU contract

Wanda Ortiz, Spoke to support HPU contract

Anna Cruz, Spoke to support HPU contract

Jane Grahm, HPS Teacher. Hasn't had a real raise in 5 years. A lot of her money goes to classroom/student supplies. Staff bonus didn't even cover groceries. Teachers don't have enough time to do everything they need to do. Does not feel supported by the district.

Shavone Russell, Secretary of the nurses' union. Insurance plan is not adequate. Cannot get important screenings/care because of insurance plan. New contract for nurses needs better healthcare options. Does not understand where they are in negotiations process and why the district won't shift to state health plan.

Sharon Douglas, Paraeducator, stated the Ratio of teachers and paras to students is not good. iGoal paras were in the building with students while others worked remote, didn't get essential worker compensation. Felt bonus was insulting. District is losing too many teachers.

Christopher Ewing, Collapsing class sizes across the district is major problem. Staffing shortage is negatively impacting his school. Long term subs are teaching subjects they aren't qualified for. Staff are stressed and considering leaving earlier than expected. District needs to do better recruiting and retaining staff.

Lucy Smith, Spoke to support HPU contract

Ellen Mathiss, Spoke to support HPU contract

Wanda Jones, Local 566 member. Wants District to utilize dept sharing between buildings.

John Walton, Local 566 member. More investment in 566 staff is imperative. Wants Superintendent/Board to honor performance incentive portion of contract, recognizing their service during pandemic. Mitigation strategies were unclear, COO and Staff Attorney were very helpful. Strategies have still not been clearly communicated. Staff have been disciplined when they don't understand the procedures. Need more training instead of discipline.

Drupatti Phulbas, Spoke to support HPU contract

Natalie Delgado-Pastor Spoke to support HPU contract

Janieka Lewis, Spoke to support HPU contract

Lashawn Robinson, Spoke to support HPU contract

Jane Russell, Spoke to support HPU contract

Joshua Rosario, Spoke to support HPU contract

Jaritza Rosado, Spoke to support HPU contract

Jessie Pierce, Spoke to support HPU contract
